Download the code used in the lesson.

PHP_introduction.zip (/uploads/webdev/content_media/PHP_introduction.zip)

Instructions to open zip file. The instructions file is present in every zip folder also.

- Extract the files.
- Open netbeans.
- Click on file in the top menu.
- Choose New Project option.
- Choose PHP category and in Projects section, choose PHP Application with Existing Source.
- For Site Root, browse to the folder where you have extracted these files.
- Click on finish.
- The folder will open in netbeans.

Note: echo statement is not case sensitive. ECHO/echo/Echo means the same in PHP.
